INTRODUCTION

You may have heard of Transition Town Charlotte. We were established in 2008 out of the Charlotte Sustainable Living Network and in association with the international Transition Towns Network founded in Totnes, England. The Transition Towns Network focuses on fostering localized, resilient communities that promote mutual support. Localized means that community members' needs are met as close to home as possible, and resilient means that communities can adapt to changing conditions, whether they are local emergencies or altered global circumstances.

In early 2010, Transition Town Charlotte began distributing an Asset Survey and collecting information about the skills and resources of folks right here in Charlotte. Close to 100 of your neighbors have responded and are included in this second edition of our town-wide directory. It is an amazing repository of information about local resources and what our fellow citizens know how to do.

This directory will be updated annually. To be included, if you are not already, you may access the survey on our website, www.transitioncharlottevt.org and return the completed form to Nancy Severance (skea@aol.com or 3560 Spear Street, Charlotte). You may call Nancy at 425-2111 with your questions or for contact information.
